Herbert Ward, the companion of Stanley in his explorations in Africa, is the only white man connected with Stanley's African explorations who has ever returned alive from the "Dark Continent." Mr. Ward's articles running through eight numbers of the "Leiger" are of the most intensely interesting description, and cover five years of his adventures in Africa, and they will be illustrated by sketches made by Mr. Ward, and by the reproduction of photographs taken in Africa. Those pictures will throw much light upon the manners and customs of the hithertounknown cannibal tribes of Africa.
